

Maine Region

Northern Section Chief Report

I attended the region instructors' refresher, then did a S & T clinic on the 14th at Big Rock with a great attendance, they responded from the clinic as all were with us! Joe provided lunch and apres bebies. Good crew well on their way to being self-supported.

Then in next I went to Big Squaw, 1/7 a non NSP hill and think I made good head way in getting them back under the umbrella, they have no sustainable path with their current plan and saw the value we could bring. If they open the upper mountain they will need better training to make a go of it.

I was overbooked and missed patroller school, but will plan on next season.

Rangleley Outdoor center Loppet, a Fat Bike race was held, second year, 100 Plus racers, great day end of January.

In february 4th we had an OEC EMM clinic at Black with Tom Bull and mostly Saddleback refugees

Feb 11, I was at Hermon, good mix of ladies and gents, fun day good folks hope to do a Ladies clinic there or at Big Rock this coming season

Feb 18th, we were at Lonesome Pine w/ Lucien and crew, another well attended good day.

Feb 25th, I patrolled a Fatbike race at Titcomb, short lap good viewing lots of fun

March S & T clinic at Sugarloaf I was pre-committed.

I was sick for the Sugarloaf test, but dropped of T-3 training sled.

I attended the eastern Region meeting in Syracuse in April.

Respectfully submitted,

Ted Eames
Northern Section Chief
